I understand that if I receive any type of financial aid (grants and/or loans), my withdrawal prior to the 60% point in the semester may cause a repayment of funds received and may prevent me from receiving financial aid in the future. If I have a student loan, I need to complete loan exit counseling. A total withdrawal may also impact my ability to enroll at Lake Superior College in the future. I am advised to discuss this with a Financial Aid staff member prior to withdrawing.

If you totally withdraw or stop attending classes, federal regulations require LSC to calculate a repayment of your federal financial aid based on your last date of attendance. Therefore, if you have been awarded financial aid, any tuition may be applied to repay your financial aid. Initials: _____
