

New Student Login Instructions

1. Obtain your Student ID and PIN. There are two ways in which you may have received your Student ID and PIN.

The first way is at a registration session on campus. Your Student ID is an eight-digit number that begins with a zero or a one. Your PIN is your birth date in the following format: YYMMDD. Example, if your birth date is January 27, 1980, your PIN will be 800127. If you did not provide your birth date on your application, your PIN will be the last six digits of your social security number.

The second way is if you created a MnSCU account to register for classes. If you registered online using your MnSCU username and password, your Student ID number was sent to you via email from MnSCU and you created your own PIN during the online registration process.

What if I don't remember my PIN? - You may have it emailed to you by going to [Lookup Password](#) in e-Services.

Why do I need my Student ID and PIN? - You need both numbers to lookup your LSCnet account information to be able to login to your Email, Connect e-Campus, and Student Portal Accounts. Also, you need both to check grades and add/drop classes.

2. Lookup your LSCnet account information. Go to [Lookup Your LSCnet Account Information](#) under Email Logins. After you look up your LSCnet account information, you will obtain your username and password which you will use to login to your Email, Connect e-Campus, and Student Portal accounts.

3. Login to your Email, Connect e-Campus, or the Student Portal using the username and password from step 2 above. Under the Email Logins tab, click on Login tab. Enter the username and password you obtained by looking up your LSCnet account in step 2 above.

Student email addresses are in the format of [username@student.lsc.edu](#)

Need Assistance? – Contact the Technology Support Center at 218.733.1016 or 1.800.432.2884 ext. 1016, or by email at [connect@lsc.edu](#)
