Notes:

1) Years are fiscal years. For example, the 2015 figures pertain to students who graduated during fiscal year 2015 (July 1, 2014 - June 31, 2015)
2) Employment figures are obtained from the Graduate Follow-up Survey, which is completed one year after graduation-- Fiscal year 2015 is the most recent publishable data
3) *X* indicates that either the program did not exist, or there were no graduates of that program, during the fiscal year
4) *N/A* indicates that the employment rate could not be calculated because none of the graduates were available for employment, e.g., they opted to continue their education, they were unable to relocate for employment, etc.
