

Auto Service Technology Diploma - 72 credits

Program Area: Auto Service (Fall 2025)

*****REMEMBER TO REGISTER EARLY*****

Program Description

In the Auto Service Technology program, students learn the skills for entry-level positions as automotive maintenance, repair and light duty truck technicians. The program also prepares students for professional certification through Automotive Service Excellence (ASE). Courses of instruction cover parts identification and all systems of the automobile, including basic operation, diagnosis, and repair with the objective of developing the diagnostic and problem-solving skills required of an automotive service technician.

Program Outcomes

At the end of this program, students will be able to demonstrate the skills and knowledge to:

- Meet all ASE G1 industry requirements for MLR.
- Diagnose and repair automotive systems and related components: engine, transmission, drive train, suspension and steering, brakes, electrical, heating and air conditioning, fuel injection, light duty diesel fuel systems, and hybrid electric vehicle systems.
- Access, utilize, and manage electronic service information and shop management systems.
- Perform repairs following environmental and ethical guidelines.
- Exhibit the safety procedures and practices necessary to work efficiently and professionally in the automotive industry.
- Maintain and repair tools and equipment in the automotive shop.
- Perform automotive and light duty truck vehicle maintenance and repair tasks in accordance with ASE G1 Education Foundation requirements.
