Net Tuition and Fees	For reporting at the system level (colleges, universities, system): the grant/aid numbers and tuition and fees numbers are totaled across the institution types (colleges, universities, system); then, this total grant/aid is subtracted from the total tuition paid by the first-time, full-time undergraduate population. This net figure is weighted by full-time undergraduate students at each institution in the computation of the institution-type reported total. The denominator is the state median family income for the calendar year corresponding to the fall term.	Tuition and fees net of financial aid.	Statewide median income.
Certificates and Degrees Awarded	The number of certificates, diplomas and degrees awarded each fiscal year. This is a count of each award conferred, not a distinct count of graduates, as some graduates may have earned multiple awards. Awards with the same award level conferred to a student on the same day are unduplicated to avoid over counting a single award associated with multiple majors.	N/A	N/A
Student Diversity - % Students of Color	Credit students of color as a percent of total credit headcount.	Fiscal year unduplicated number of students of color enrolled in credit courses.	Fiscal year unduplicated number of students enrolled in credit courses.
Employee Diversity - Employees of Color	Measure represents employees of color as a percent of total employees. Employee headcount is determined based on employees with an assignment on March 1st of each year and with a FTE greater than zero. Presidents are included in their institution's headcount. Employees of color include race/ethnic categories of: Black or African American, Asian or Pacific Islander, Hispanic or Latino and American Indian or Alaska Native employees. Instructional Cost Per FYE	The ratio of the actual to expected value of the fully-allocated instructional expenditures per full-year equivalent enrollment (FYE). The institution's expected expenditures are derived from the system-wide average expenditures for the institution's allocation CIPs (for direct costs) and levels of instruction (for indirect costs). These expected values are computed separately for colleges and universities.	The institution's actual value of the fully-allocated instructional expenditures per full-year equivalent enrollment (FYE).	The institution's expected value of the fully-allocated instructional expenditures per full-year equivalent enrollment (FYE).

Composite Financial Index (CFI)	This metric of financial health is computed in four steps: 1) The individual component measures are computed. 2) These measures are each divided by their respective "Base Strength Factor" which is a set base value denoting a border-line or minimal level of financial health, which is 0.133 for Primary Reserve, 0.02 for Return on Net Assets, 0.417 for Viability, and 0.007 for Operating Margin. 3) For each component measure, the result of Step 2 is multiplied by a set Weighting Factor, which is 0.35 for Primary Reserve, 0.20 for Return on Net Assets, 0.35 for Viability, and 0.10 for Operating Margin. 4) The results of Step 3 are summed across all four measures, resulting in the CFI.
