

Lake Superior College POET Level 3: *Teaching Technologies*

Credits: equivalent to 1 undergraduate credit

Course Description

In this eight week online class, participants will learn about new and existing educational technologies both in and out of D2L Brightspace that can help in engaging students, making teaching more efficient, and increasing student success and access. Pre-requisites: Successful completion of POET Level 2 or instructor consent.

Course Outcomes

Participants will be able to:

- Discuss issues related to the use of teaching technologies
- Identify the basic functions and uses for some advanced D2L Brightspace tools
- Select and use specific D2L Brightspace and other teaching technologies and software in their own online courses
- Research and present information on new or existing teaching technologies
- Explore whether or not to implement a teaching technology or D2L Brightspace tool in their own courses
- Develop methods and tools for making online materials ADA compliant and accessible to diverse student needs
- Describe and implement methods and tools for engaging multiple online sections and multiple online classes
